Important privacy and program information

Standard email and attachments are not a secure submission portal. Do not send Social Security numbers, bank statements, medical records, government IDs, or other sensitive documents. Only provide information requested on the application. If you prefer not to email household information, call GTG to arrange another method.

Applications are reviewed by authorized GTG personnel. Assistance is not guaranteed and depends on eligibility, assessed need, donations, and available resources. Applying is free. Families may request more than one type of assistance; GTG counts each household only once toward its overall goal.
